## Oboe Key Diagram & Trill Exercises

### Key Diagram:

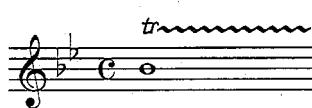

This graphic can be used as a reference for the fingering and trill charts.

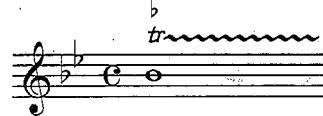

Trills are a form of musical ornamentation which involves a rapid, slurred, alternation between a main note and the note above.

Unless otherwise indicated, the trill should be played taking the key signature in consideration. Sharp (#), flat (b), or natural (n) signs that appear above a trill notation indicate a departure from the key signature of the piece.

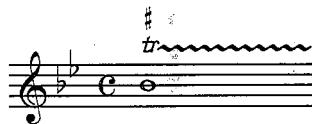

### Examples of trill notation:

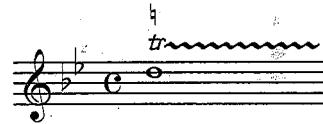

trill B<sup>b</sup> to C

trill B<sup>b</sup> to C<sup>#</sup>

trill B<sup>b</sup> to C<sup>#</sup>

trill D to E<sup>#</sup>

Practice trills by taking the indicated notes and creating an exercise that progresses from slow to fast measured rhythmic values - finally let the trill finger(s) alternate freely. Using a metronome will greatly enhance this drill technique.

the indicated notes are B<sup>b</sup> to C

### Measured Trill Exercise:

(allow finger(s) to alternate freely)
